PROFESSIONAL SUMMARY

Through my skills, background, and experience, I bring a unique blend of engineering expertise and backend software development proficiency to the table. With a solid foundation in aerospace engineering principles, I offer analytical prowess, problem-solving abilities, and a keen eye for detail. My transition into backend development demonstrates adaptability, a commitment to learning, and a passion for innovation. This combination equips me to craft robust digital solutions that meet the evolving needs of businesses, contributing to the efficiency and effectiveness of my overall skill operation.

AREAS OF EXPERTISE

BACKEND DEVELOPMENT	FRONTEND DEVELOPMENT
DATABASE MANAGEMENT	API DEVELOPMENT &
INTEGRATION	
UI UX DESIGN	DEPLOYMENT & HOSTING

WORK EXPERIENCE

- ✓ **Air Traffic Surveillance Engineer (undergraduate Intern)**
Nigerian Airspace Management Agency, Nnamdi Azikiwe International Airport, Abuja FCT, Nigeria.
2022-2023
- ✓ **Air Traffic Surveillance Engineer (Graduate Intern)**
Nigerian Airspace Management Agency, Nnamdi Azikiwe International Airport, Abuja FCT, Nigeria.
2024
- ✓ **Back End Engineer (Part-Time Remote)**
BetControl, Lagos Nigeria.
2025

Back End EXPERIENCE

- ✓ **Freelance Back-end Developer (The Rex Codes)**
Developed a user authentication system (signup, login, password reset) using Django, DRF and JWT.
- ✓ **Back-end Developer @ BetControl**
A gambling regulating mobile application. Tasked alongside other developers with creating features that reduces gambling (API development, server-side, db management).

TECHNICAL SKILLS

Python	Django	Django REST Framework	FastAPI	NLTK
PostgreSQL	SQL			
Git	JavaScript(ES6+)	ReactJs	Figma	MongoDB
GitHub				
Docker	Bootstrap	HTML	CSS	AWS

COURSES & TRAINING

- ✓ **Full-stack web development bootcamp**
Dr. Angela Yu @ Udemey 2020
- ✓ **100 Days of Code: The complete python pro Bootcamp**
Dr. Angela Yu @ Udemey 2023
- ✓ **FreeCodeCamp UI UX Design/User Research course**
Joseph Brandon @ Youtube 2023
- ✓ **Havard's CS50p Introduction to python programming**
Prof. David J. Malan 2023
- ✓ **Havard's CS50x Web programming with python, API and Javascript**
Brian Yu 2023

PERSONAL PROJECTS

R-CHATBOT APPLICATION (2024)

- Leveraged expertise in backend development with Django to build a chatbot application, utilising Transformers - Tensorflow NLTK at first then replacing it with a third party API (OPENAI API).

R-MOVIE JOURNAL APP (2024)

- A Django-based application that allows movie enthusiasts to log, review, and organize their cinematic experiences.

REX-KANBAN APP (2025)

- Rex-Kanban is a task management API that enables users to create and manage boards, columns, and tasks efficiently. It provides authentication, role-based access, and a structured RESTful API to help users organize their workflow.

EDUCATION

BACHELOR OF ENGINEERING IN AEROSPACE ENGINEERING

AIR FORCE INSTITUTE OF TECHNOLOGY, KADUNA, NIGERIA

GRADE: SECOND CLASS UPPER DIVISION

11/2018 - 21/2023

LANGUAGES

- ✓ ENGLISH
- ✓ JAPANESE (in-view)
